| Date of Assessment | 23-Jan-2024 |

We thank you for having taken the assessment developed by Educafe Student Solutions Pvt Ltd. This assessment assessed your Interest, Abilities and Personality with special reference to the world of work. This report has been generated based on the responses that you gave to the questions asked. Your responses have been analyzed and the results reveal the following:

Social Desirability refers to the tendency to answer in a way that is socially acceptable and desirable rather than being a true reflection of oneself. Your responses reveal that a Social Desirability set may be operating and your responses may not completely depict your true profile

Your responses reveal that you have scored highest in the following areas:

| Interests | Abilities | Personality Type | Behavioural Traits |
|--------------------------|-----------|--|--|
| Interpersonal Musical | Empathy | Your responses reveal that there is no one personality cluster in which you have scored very high. | Your responses reveal that there is no one behaviour trait in which you have scored very high. |
